7 June 1956

MEMORANDUM FOR RECORD

SUBJECT: [REDACTED]

25X1A9a

25X1A9a 1. On 5 June 1956 a meeting was held at the Pentagon in the office of Colonel Berg. Colonel Berg, Major Vincent, Major Faulkner, JAG; [REDACTED] and the undersigned were in attendance. The topics of discussion were (a) the most feasible method of Subject's re-entry into the Air Force and (b) his future assignment.

2. Tentatively the planned action for Subject's re-entry into the Air Force is as follows:

25X9A5

a. [REDACTED] is to meet the Correction Board Chairman who reviews personnel records of persons re-entering the Air Force. This meeting is to brief him, within the limits of security, of the Air Force obligations to the Subject.

25X1A9a

b. The Board is scheduled to convene within the next week or tendays. However, before [REDACTED] case can be considered, his Air Force records must be sent from Denver where they are presently stored.

c. It was stated that Subject's case will be given the highest priority. It was not felt that any complications will arise, but this review is an Air Force procedure which must be followed.

d. Upon completion of the above mentioned review, Subject will be re-enstated; and no break in service will be indicated. As there will be no break in service indicated on the records, compensation supposedly due the Subject from the Air Force during his employment by the Agency will be covered by the dual compensation rule, that is, personnel cannot receive remuneration from two sources for the same job. He was on a classified program assigned by the Air Force, but he received his salary from another source--this, it appears, will be sufficient to cover him for tax purposes according to Major Faulkner.

3. Subject's future assignment.

a. Subject is tentatively scheduled to be assigned to Headquarters, Washington D. C. Any training he may need, i.e., instrument check, etc. can be effected at this time. [REDACTED] will then be assigned

[REDACTED]

to Eglin Field, Florida, Air Material Command as a test pilot. Overseas assignments are not usually forthcoming from this command until the pilot has been at his duties at least one year.

25X1A9a

4. Subject agreed to the above procedure and assignment. [REDACTED] will be notified when the Board meets and will make himself available during this period.

25X1A9a

5. [REDACTED] is presently located in Richmond, Virginia. The address at which he can be reached is:
